Vote For Anti Corruption Alliance www.irish-independents.org

We offer the Voters and the General Public the following:

1. An end to corruption in the state sector, the public sector and the private sector through radical new policies, structures and laws. Enforcement of full Accountability.
2. **Large reductions in taxes and a low tax environment.** A massive reduction in the national debt and accompanying large reductions in taxes and the creation of a new low tax environment which promotes work, investment, consumer spending, employment creation and strong economic growth through radical new policies, structures and laws
3. A large reduction in inflation and in the cost of living for families and individuals and in the cost of energy, goods and services through radical new policies, structures and laws
4. Lower house prices through a massive investment in private affordable housing and social housing including short term, interim and long term housing solutions. House prices capped at 5 - 7 times average annual earnings so as to prevent more theft and robbery of the Irish people and nation. And monthly rents capped at 90% of average weekly earnings. An end to homelessness and high numbers of evictions. End the domination of Ireland by Vulture Funds and expose and prosecute their frauds and criminality in the courts.
5. An end to homelessness through the previous policy above and through radical new policies, structures and laws
6. Big reductions in mortgage payments through radical new policies, structures and laws
7. A vast restructuring of the entire economy to end Debt Slavery and enforce a new money system based on hard assets and infrastructural assets which can grow in line with output and investment in hard assets not speculation in asset prices. The removal of this Debt Slavery will give the Irish government the ability to massively invest in the Irish economy and Irish society.
8. Massive new investment in hospitals, fitness and diet programmes for everybody, alternative health programmes, schools, Universities, the vast expansion of private housing and social housing, in gardai and garda stations and more effective crime prevention programmes, improved wages and conditions for military personnel, light rail in cities and towns, completion of the western rail corridor and in healing centres, see <https://www.healingcentres.org/> through radical new policies, structures and laws
9. Massive new investment in rural Ireland, in farming, in agri businesses, in farmer share ownership of agri businesses, in market expansion nationally and internationally, in new tech businesses and remote working, in affordable fuel for farming, in towns and villages and community regeneration
10. Protection of freedom of speech and freedom of expression. The ending of state control of the press and media and the creation of a freer and more independent press and media

11. An end to Open Borders and Mass Migration into Ireland so as to protect Irish wages and worker's rights and take the population pressures off housing prices, rent prices, housing availability, hospital places, school places, hotel rooms for tourists, etc.. This would also make towns and cities safer and more business friendly and tourist friendly.
12. A new transaction tax to tax the speculators, hedge funds, big banks, and big foundations who profit from speculation worth trillions of euros per year in Europe. This would raise a few billion euros in Ireland.
13. A 30 - 40% reduction in the cost of living in terms of lower food prices, lower energy prices, lower goods and service prices, lower taxes, lower rents, and lower mortgage payments.
14. Rises in wages and incomes of 20% or more for all working class people and all workers in a fairer and more Democratic Capitalism system. Giving capital and shares to workers, families and communities and encouraging them to become investors in the businesses they work in and in other businesses which are local, community, and national based. Economic Democracy. This is the same capitalism proposed by Adam Smith who lived at a time when most businesses were partnerships.
15. Re-unite Ireland and create a 32 county Irish Republic or Eire and a 32 county Dail Eireann through Referendums as stated in the Good Friday Agreement of 1998. For over 25 years the big political parties have refused to do this.
16. Protect Irish neutrality which is being attacked and undermined by the big political parties in Ireland. Work with governments and organisations in other nations to promote Peace and Justice and Healing around the world, see <https://www.healingcentres.org/> , through radical new international policies, structures, and international laws and treaties. Create a safer world and better world for you and your family and children.
17. Help us create a better future for you and your family and for your children and their children.

Corruption has destroyed Ireland and most lives and has affected your life

Have you had enough of Corruption in Ireland ? Have you suffered enough from the effects of corruption ? corruption in politics, in the courts, in the police, in the legal system, in the HSE, in state bodies, in the banks, etc. As Independents we represent and serve you and the ordinary people of Ireland NOT corrupt political parties which serve vested interests, the property speculators and vulture funds, the elite and the Globalists and use the party whip to enforce a dictatorship inside the political party. **Political parties are dictatorships.**

Accountability

Do you want Accountability in politics, in the courts, in the police, in crime prevention, in the HSE, in state bodies, semi state bodies, etc. ? As independents we support Accountability and we will enforce Accountability if elected.

Paying Too much Tax

Are you paying too much tax ? are you over taxed ? are we all over taxed ? are you sickened by all the taxes, levies, charges, and fines which are robbing you every day and week ? have you been robbed enough or do you want them to rob you more and rob your children and grandchildren ? a high proportion of our taxes are wasted on corruption, over-pricing contracts and enriching cronies, useless projects, paying debts to Globalist banks which create money out of nothing, paying for open borders and mass migration, and the 30,000 NGO's
